

## **JCC Retained as Owner Representative for the new office And training center for the Greater Manchester Nashua Board of Realtors**

Jobin Construction Consultants was hired by the Greater Manchester Nashua Board of Realtors to manage the permitting, design, and construction of their new corporate offices and training center in Bedford, NH. This project included a change of use to the property from a manufacturing facility to business office use. The 16,000 s.f building required a complete gut renovation. The project was designed by Dennis Mires, The Architects and construction was provided by Hutter Construction Corporation.

The project include all new systems, interior and exterior finishes, and a new elevator. The final plan included several tenant spaces.
