

## **JCC Named Owner's Representative for Portsmouth Housing Authority Adaptive Re-Use Project at Lafayette School**

Jobin Construction Consultants was retained by the Portsmouth Housing Authority to be the clerk of the works on their new Senior Housing Project.

The project, includes the adaptive re-use of the former Lafayette School Building which was transformed into housing for seniors. While most of the building was renovated, the original stairways were restored as part of the historical restoration of the building. The renovation included energy efficient materials and complies with Energy Star Building Standards.

The project was funded using low income tax credits, federal home loan funds, and private financing.
